DISTRICT VISION AND MISSION FOR TECHNOLOGY

Vision

District staff, educators, and students at all levels will integrate technology in meaningful and diverse ways that promote effective communication and collaboration - advancing teaching and learning in every classroom to positively impact outcomes for our students. We believe students will transition from recipients of information to creative cultivators and owners of knowledge.

Mission

All members of our dynamic team, instructional and technology support, will work together towards a shared goal - supporting every student in developing the skills and knowledge needed to succeed in a progressive, technology-reliant, global society through a dynamic technology integrated learning environment that is reliable, effective, ethical, and transformative.

Our purpose is to establish and maintain a technology integrated learning environment that ensures adequate support, training, development, and deployment systems are in place to provide educators, students, and other key personnel with the tools, resources, and information necessary for effective integration of technology in the learning environment daily.

The student is responsible for complying with any and all hardware, software, and service provider licensing agreements, terms of use, and applicable state and federal copyright and other intellectual property protections. Violation of any such license, terms, and laws shall constitute a violation of this policy and may result in additional consequences as outlined in the Student's Rights and Responsibilities Handbook.

INTERNET & NETWORK USAGE POLICY

The Internet and Network Usage Policy (INUP) outlines the guidelines and behaviors that users are expected to follow when using school technologies. The use of any district provided technology requires staff, students, and parents to abide by the East Baton Rouge Parish School System INUP, which can be found in Appendix I.

STUDENT TECHNOLOGY USE POLICY AND AGREEMENT FORM

The East Baton Rouge Parish School System adopted the Student Technology Use Policy to serve as a guideline for the expectations of students in regards to the use of technology provided by the school system.

Before a student can use any technology at a school, the parent/guardian and the student must review the *Internet and Network Usage Policy* in **Appendix I** of this handbook and return the *Student Technology Use Agreement form* in **Appendix II** of this handbook to the school. Violation of the agreement, terms, and laws shall constitute a violation of this policy and may result in additional consequences as outlined in the Student's Rights and Responsibilities Handbook.

RECEIVING AND RETURNING THE DEVICE

1:1 CHROMEBOOK CHECKOUT

During the first few weeks after the start of school each year, before the beginning of the first 9 weeks, each student will be assigned one Chromebook device to **use** during the school year. The Chromebook will be assigned to the student through the Destiny Resource System at the school which is the same process used to issue textbooks to students. The students will utilize the Chromebook throughout the day and return them prior to leaving at the end of the day. Each school administrator or designee will provide students with checking out and returning Chromebooks. If a student checks out of school during the day, the student must return the Chromebook prior to leaving the campus. The Chromebook, as with other school issued items such as textbooks and library books, is the student's responsibility for instructional use. The Chromebook, however, will be used during the school day. Therefore, any instance of misuse, loss, theft or negligence will be reviewed on an individual basis to determine the amount of financial responsibility (if any) and restitution that the parent or guardian may be required to pay. This handbook outlines the procedures and policies for use to protect the Chromebook investment for the East Baton Rouge Parish School System. In the event of such negligence, the parent or guardian will be contacted by the principal or principal's designee.

DISTRICT OWNED/ISSUED

A Chromebook will be assigned to each student through the Destiny Resource System. In addition to the Student's Rights and Responsibility Handbook signature sheet, each student must sign and return a signed parent/guardian **Student Technology Use Agreement Form** as well as **Internet and Network Usage Policy**. To support this initiative, each school should hold Parent/ teacher informational meetings sharing additional procedures, class use, and review of the Technology Handbook and Administrative Guidelines. Parents and students are encouraged to read this 1:1 Handbook and Administrative Guidelines, the East Baton Rouge Parish Internet & Network Usage Policy and Student Technology Use Agreement and sign and return the signature pages.

CHROMEBOOK CHECK-IN

Each school will train students on the daily check in process. At the end of each day, students are required to check in the Chromebook. At the end of each year, the Chromebook will be checked back into the Destiny Resource System. If a student transfers to another school for any reason during the school year, the device must be checked in at the time of withdrawal. Students who withdraw, are expelled, or terminate their enrollment for any other reason must check-in the device upon withdrawal enrollment for any other reason must check-in the device upon withdrawal. Any Chromebook not returned will be considered stolen property and law enforcement agencies will be notified. Chromebooks are considered property of the East Baton Rouge Parish School System and should be treated as such. Chromebooks will be examined daily for damage and fees may be issued if damage is found beyond normal usage.

CHROMEBOOK STORAGE

To protect the Chromebooks, transport cases may be used. Each school will determine if a transport case will

be used at their school site. If required, it is recommended that the transport cases are labeled. The identifiable label should never be removed from the transport case. Students should never remove the transport case from the Chromebook. All students must adhere to the rules, policies, and procedures outlined by their school.

DEVICE USE, CARE & MAINTENANCE

The student is responsible for the safety and security of the device and any activity associated with the device. It is the responsibility of the student to know where his/her issued Chromebook device is at all times. Any devices left behind or unattended will be taken to the administrative office. Students who misplace devices will be required to pick up the device and talk to a staff member regarding the importance of accountability of their device.

User Expectations for Handling and Care of the Device

CHARGING AND PREPARATION FOR CLASS

It is the student's responsibility to ensure their district-issued device is returned to the appropriate charging cart and slot at the end of each school day, or before they leave campus. It is the teacher's responsibility (or the responsibility of the substitute/ assigned personnel) to connect the chargers to each device prior to leaving, so they can charge each night and be ready for use the following school day. It is the responsibility of the student to ensure they use the assigned Chromebook and report any damage immediately. If a student checks in late to school, the student must follow the school's policy to retrieve the Chromebook at the appropriate time.

INAPPROPRIATE USE OF DEVICES

It is the responsibility of each student to use their issued device in an acceptable manner. Students must never hold the device by the screen. Students will be subject to the Student Technology Use Agreement as well as the student sections of the East Baton Rouge Parish School System Internet and Network Usage Policy and must adhere to the expectations of each teacher regarding the use of their device in a classroom environment. Printing will only be done from a desktop computer.

FILE MANAGEMENT

Students will be provided cloud space to store les. It is recommended that all les be stored in this space so that in the event a device fails, the student's work and materials will be safe. Students should not backup work on a personal jump drive.

PASSWORDS AND BACKGROUND IMAGES

It is the responsibility of each student to protect their password. Passwords should never be shared. If a student forgets his/her password, or believes someone has accessed their password, the students should immediately report it. Each Principal and Technology Facilitator will be trained on resetting passwords. Students who attempt to hack into other systems or steal student or staff information may be subject to school disciplinary actions and legal actions, if deemed necessary.

UNAUTHORIZED USE OF DEVICES

All internet traffic is monitored by our filter program. Parents and Guardians will be notified by the principal

When a Chromebook is initially turned on, it updates automatically allowing the students to operate on the most recent version of the Chrome operating system. If the student's Chromebook needs technical support for the operating system, the teacher must request support by notifying the Technology Department by creating a Help Desk Ticket.

HELP DESK TICKET PROCEDURES FOR CHROMEBOOKS

The Help Desk Ticket System provides direct communication from the employee reporting a concern directly to the EBRPSS Technology Department. If there is a concern with a Chromebook, the student must immediately report the concern to their teacher. The teacher will be responsible for creating a Help Desk Ticket in the School Dude System. A Help Desk Ticket should be created by the principal or designee if a Chromebook device has a broken or cracked screen, if a device is stolen, or has any other damage. A Help Desk Ticket may also be needed if the use of the Chromebook Troubleshooting Student Login Sheet does not assist with clarifying disabled student accounts, or updating forgotten passwords. DEVICE & ACCESSORIES REPAIR AND REPLACEMENT

DISCLAIMER

Parents or guardians may be responsible for damages or replacement of the Chromebook due to negligence, misuse or loss. All instances will be reviewed on an individual basis by the principal or designee to determine the amount of financial responsibility and restitution that the parent or guardian must pay. The principal or designee will follow the suggestions outlined in the Student's Rights and Responsibilities Handbook.

TIMELINE FOR REPAIRS

Some repairs for Chromebook devices can be managed on-site, other repairs must be sent to the district to be repaired by an ACER Certified Repairman, while more severe repairs will be sent to a 3rd party vendor. Devices that are sent to a vendor will be processed in the order they are received and by the availability of the parts needed to make the repair. Some repairs may take over (30) days because of the specific claims process under the Chromebook care warranty.

ONSITE REPAIRS

Once the Help Desk Ticket is assigned to an EBRPSS IT Tech, he/she will review the Chromebook damage to determine if the repair can be managed onsite. If the repair can be conducted onsite, the EBRPSS IT Tech will repair and return the device to the student and update the status to the Help Desk Ticket.

OFF SITE REPAIRS & STATUS UPDATES ON REPAIRS

If the EBRPSS IT TECH determines that the repair cannot be made onsite, he/she will have the Chromebook checked out of the Destiny Resource Manager System and note the status of the device in the Help Desk Ticket System. The status of the Chromebook will be updated with each status change. Once the device is repaired, the EBRPSS IT TECH will return the device to _____ to have the device checked back in to the Destiny Resource Manager System. The _____ will ensure the device is returned to the Chromecart and Chromebook slot. If a loaner device was issued, it will be retrieved at this time.

LOANER DEVICES

Loaner devices are available on a case by case bases, under the discretion of the administrator, and based on availability. The principal or designee may determine that loaner devices may not be available for students who have abused or misused their device. Unless specified otherwise in writing, students will not take their devices home. As a school and district, we anticipate the need to loan devices to students who are having their primary devices repaired. While we hope to have loaner devices available to students during these repair periods, there may be times where we do not have any available loaner devices. Under these circumstances teachers will make every effort to allow students to use classroom computers or give the student an alternate assignment of equal value. Loaner devices *may* be assigned to students for the duration of their device repair. Loaner devices will be assigned on a first come, first serve basis. To obtain a loaner device, _____

16. Using instant messaging, voice over internet protocol, or video over internet protocol programs unless authorized for business use

C. Password requirements for EBRPSS enterprise business application systems:

Passwords keep information safe and to prevent potential security breaches. Each employee is assigned a password as a method to provide unique access to information technology resources and information. Passwords shall never be shared with others; unless a legitimate business reason exists (e.g. sharing a password with the EBRPSS Help Desk to solve a computer related problem). If an employee suspects their password has been compromised, it should be changed immediately and reported to the EBRPSS technology help desk or to the chief technology officer.

A poorly chosen password may result in the compromise of the EBRPSS network. A strong password:

1. Has both upper and lower case letters. (Required)
2. Has digits or punctuation characters as well as letters. (Required)
3. Is at least eight alphanumeric characters long. (Required)
4. Is easy to remember and hard to guess.
5. Can be typed quickly.
6. Is changed at least once every forty-five days. (Required)

Do not use:

1. The same password for multiple computer or network systems.
2. Personal information (pets, names, phone numbers, etc.) as passwords.
3. Easy to guess or identify passwords such as 1234 or QWERTY.
4. Your password on a computer you suspect may have viruses or malware.

It is important to note that the practice of writing down your passwords is discouraged, but allowed if it is stored in a secure location.

D. Virus/Malware/Spyware Prevention and Protection

1. To protect EBRPSS information technology resources, data standards or requirements for all computers and devices connected to the EBRPSS networks must be in place to ensure effective virus and malware detection and prevention.
2. All EBRPSS computers must have the standard supported EBRPSS antivirus program installed and scheduled to run at regular intervals.
3. The antivirus program and antivirus patterns (definitions) must be kept up-to date.
4. All EBRPSS computers must have antispysware program installed.
5. If you believe your computer is infected with a virus or performing abnormally, turn off your machine and contact the EBRPSS technology help desk immediately.
6. The use of non-standard programs or shareware is allowed only after approval of the EBRPSS Chief Technology Officer.

2. Confidential or sensitive data may not be copied without authorization from EBRPSS administrators.
3. Confidential information shall be encrypted before communicated via e-mail or transferring via portable storage devices.
4. Recipients of confidential or sensitive data shall not disclose the contents to any individual unless that person has a valid need and proper authorization from EBRPSS Management.
5. The principle of least privilege must be followed in giving access to data.
6. Access privileges must be reevaluated regularly; access rights should be revoked or changed accordingly to reflect an individual's role, responsibilities and employment status.
7. Any release, exposure or potential exposure of confidential information to an unauthorized third party or unauthorized access to EBRPSS's system must be reported immediately to district management.

Disclaimer: Neither EBRPSS nor the Technology Department will assume responsibility for maintaining, installing, operating, or repairing any technology installations initiated by outside agencies without prior written agreement approved by the superintendent, chief technology officer, and/or other authorized designee(s).
